Commerce says: While it is impossible to estimate accurately the extent of the Alaskan gold imports this year, it is believed that they will exceed those of last year, and that they will have a material influence on local bank reserves. William Gray, one of the agents here for the Canadian Bank of Commerce, which has a branch at Dawson, said yesterday that last year his bank received \$6,000,000 from Alaska. A conservative estimate of last year's total receipts would be \$12,000,000. This year the receipts ought to be \$15,000,000 and perhaps more.

"The whole Alaskan production will come to New York," said he. "Thus far we have received \$1,200,000 in subtreasury drafts against deposits of gold in Seattle and San Francisco. We have advices of \$800,000 more in transit, and I personally know of over \$1,000,000 more which will soon come to us. The other Canadian banks represented here will also bring in Alaskan gold." Commerce says: While it is impossi

The shots went wild and the three men returned the fire and fled.

### INSURED.

OU insure your house against fire. You know what people would say if it burned down without insurance. They would say you were wanting in business sagacity, that you should have provided for this. Now leave house insurance and consider clothing insurance. Here the danger is even greater-not from fire, but from the chemicals and strong soaps used in the laundry. Wise women insure their finer, more delicate and perishable things against this risk, and the premium they pay is the

trifling cost of Ivory Soap. That guarantees protection.
